Legion Urges Public To Vote In Federal Election

Lt. Col. L. D. M. Baxter, O.B.E., W.D., of Winnipeg, Dominion President of the Canadian Legion, B. E.S.L., announced the opening of a nation-wide campaign to urge the public to do its part in preserving democracy by voting on June 27th.

The Legion calls its campaign "Operation Vote" and operational orders have gone out to all of its 2000 branches in Canada, urging them to muster their forces for an all-out offensive against the enemies of democracy—Apathy and Indifference.

Col. Baxter pointed out that the Legion's membership was composed of men and women who had faced the enemies of freedom in time of war and helped to preserve our democratic way of life. He said that, in sponsoring the present campaign, the Legion is endeavoring to alert the Canadian public against the dangers facing a nation whose citizens become indifferent to their democratic responsibilities.

EARLY COPY NEXT WEEK WILL BE APPRECIATED

Rodeo week, with its two successive half-holidays, plus the fact that one of our staff is away on holidays, all adds up to a busy week for the printers next week.

We therefore ask our advertisers and correspondents for their co-operation in getting copy in as early as possible, preferably Monday.

The Dominion President stressed the fact that the Canadian Legion as an organization is completely non-political and non-partisan, but is vitally interested in the maintenance of democratic principles.

There are over one and a half million people who obtained from voting in the last election, or one out of every four eligible, Col. Baxter said. There are eight million people eligible to vote in the coming election.

It is the duty of every citizen, the Legion leader said:

1. To acquaint himself with the questions at issue and the attitude of different parties;
2. To choose a party or support an independent candidate;
3. To take some part in selecting a candidate;
4. TO VOTE.

This is the only way in which the people at large can share in the government of the country, the Legion's national head asserted. Only by expressing their will at elections can they determine their future and maintain the principles of democracy.

Light Business At Council Meeting

Mayor Allan and Councillors Morrison, Lloyd, Short, Beuhler, Saxby and Willard were present at the June meeting of the town council, held Monday evening, June 6.

Building Permits
The following building permits were approved:
John Schierman, remodel garage, \$400.00.

Mrs. E. Arnold, moving bunk house, \$50.00.
Everett Marsh, addition to house \$700.00.

Roy Fulton, garage, \$300.00.

Refuse Tag Day
The request of the Canadian National Institute for the Blind to hold a tag day in Vulcan was refused, but permission was given the Institute to canvass for funds.

Approve License
Council recommended to the Department of Industries and Labour that a license be granted Shortt & Bourassa for the addition of a line of sporting goods to their present business.

Office Hours
Town office hours were set at 9 a.m. to 1 p.m. on weekdays and 9 a.m. to 12 noon on Saturdays, these hours to be published in the Vulcan Advocate.

Frontage Tax
A motion was passed authorizing the town secretary to impose frontage tax on all exempt properties standing on the tax roll.

Thigh Hill W.I.

The June meeting of the Thigh Hill W. I. was held at the home of Mrs. A. R. Mainland with ten members and one visitor present, and Mrs. Erickson presiding.

Roll Call was answered by each member speaking a few words on a beauty spot in Alberta.

Mrs. Ruth Orchard was nominated delegate to the conference in Vulcan June 16th.

Each member brought a tea towel to be left with the Institute dishes for sales or other occasions. Mrs. Mainland gave an excellent report on the biannual convention in Edmonton.

The raffle was won by Mrs. P. Myers and a delicious lunch was served by the hostess assisted by Mr. Pat Roe.

The next meeting will be held at the home of Mr. P. Myers on July 7th.

THE WEATHER—
Monday was a hot, windy day but cloudy and cooler weather has prevailed Tuesday and Wednesday.

U.N. Sponsors Holy Land Peace Talk

In what may be one of the last steps toward a permanent settlement of the Holy Land conflict, the United Nations Conciliation Commission for Palestine, in Lausanne, Switzerland, is now sponsoring Arab-Israeli exploratory talks on the terms of a final peace. Here, the Commission's Principal Secretary, Pablo de Azcarate, discusses the day's order of business with Chairman Mark Ethridge of the United States, and the Turkish Representative H. C. Yalcin.

Girl In Hospital Following Accident Near Lake McGregor

Injured When Car Drops Into Unbridged Gully

One Okotoks resident was badly hurt and three others received minor cuts and bruises when the car in which they were travelling plunged into an unbridged gully near Lake McGregor at about 11:30 a.m., Sunday June 5.

Miss Betty Stewart, 18, was taken first to the Vulcan hospital and then to High River for treatment of severe facial lacerations and shock. The driver of the car, Robert Gerlitz, 19, and two other passengers, Alice Cavanaugh and Norman Gould, did not require hospitalization.

The young people had been fishing at the south end of the lake and were driving along an adjacent road when they came to a spot where a bridge had been completely washed out, leaving a gully about ten feet deep and 15 feet wide. The washout was not noticed in time to bring the car to a stop and it went over the edge, landing in an upright position at the bottom. Miss Stewart, who was a passenger in the front seat, was thrown through the windshield and knocked unconscious. The others ran to a nearby farmhouse for help and Miss Stewart was rushed to the Vulcan hospital and later to High River.

The accident occurred about 20 miles east of Vulcan, where a bridge was washed out last year. District residents knew of the detour, but it is understood there were no warning signs or road blocks to prevent the road being used.

Many Visitors At Rebekah Lodge

Monday evening, June 6th, was a very busy one for Cloverleaf Rebekah Lodge No. 37, when they entertained visitors from Sister Rebekah lodges of Banff, Blackie, Caykey, High River, Lethbridge, Milo and Calgary. About 175 members were seated to watch Dominion Rebekah Lodge No. 41 of Lethbridge confer the degree on a candidate of Cloverleaf Rebekah Lodge.

Distinguished guests welcomed during the evening were Mrs. and Mrs. B. Morden, both of Dominion 41, Lethbridge, and Past Presidents of the Rebekah Assembly of Alberta; Mrs. Gilks, Past President and a member of Naomi Lodge No. 12, Calgary; Mrs. E. Roobuck, D. D. P. of District No. 15, and Mrs. Goldie D. D. P. of District No. 17.

Mr. Morden, Past Grand Master of the Grand Lodge of Alberta, Lethbridge; Mr. LaBarge, Dep. Grand Master of the Grand Lodge of Alberta; Mr. Brockway, Grand Senior Warden of the Grand Encampment of Alberta; and Mr. Stitt, Grand I. Sentinel of the Grand Encampment of Alberta.

At the close of the meeting a delicious lunch was served in the dining room.

Moisture reserves are low and rain would be most welcome at any time, although crops are making good growth at present.

Receives Bursary To Attend McGill

Gordon E. Myers of Edmonton, a former student of Vulcan High School, has been granted a bursary by the Department of Public Health and the University of Alberta to study at McGill University for the degree of Ph. D. in Bacteriology. The course will extend over two years and the bursary is one of the largest ever given by Alberta.

Gordon received his B. Sc. and M. Sc. degrees at Edmonton and has been on the faculty of Alberta University for the past two years.

Prior to entering McGill in September he will spend his vacation, the month of August, at his home in Victoria with his parents, Mr. and Mrs. W. E. (Billy) Myers, formerly of the Reid Hill district. Gordon's many friends wish him continued success in his chosen field.

Rev. Brunton Dies At Edmonton

Word was received on Wednesday by Mayor W. D. Allan of the death at Edmonton of Rev. John Brunton, former minister of the Vulcan United Church for many years.

Further details are lacking but it is understood the funeral will be held at Knox Church, Edmonton, on Friday, June 17, at 3:30 p.m.

LETTER TO THE EDITOR

June 5, 1949
Vulcan, Alberta.

Editor,
Vulcan Advocate.

Dear Sir:

Today we went to see the car that carried four innocent young men and women to a very sad circumstance. Somehow and by some unseen power they were not killed. It was not their own power which saved them, they were helpless. You may ask, whose fault was it? and well it is you may ask it, too. For when a thing like this strikes people are put on the alert. The trouble is the ones who should be alerted are somehow conspicuous by their absence. Some will blame it on the driver, myself I say that perhaps a very small part of it is his fault. The other large part of the blame should by all means be placed on the Municipality. For as anyone knows who has been there, there were no signs erected, neither stating the detour in the field nor the absence of the bridge.

An occurrence such as this should bring our councillors to a spot where they would be awakened. There are many danger spots on our roads—e.g. nine and one-half miles east of Vulcan on the gravel, also thirteen miles east and approximately two and one-half miles south of Vulcan.

I have a great deal of sympathy for the occupants of this car from Okotoks.

— A Teen-Ager.

Foothills Division Offers Teacher Training Bursaries

Three Bursaries Instituted For Divisional Students

At the regular meeting of the Board of Trustees, Foothills School Division No. 38, held in the Divisional Office, High River, on May 27, the matter of participation by the division in the Department of Education's bursary scheme was given consideration. The Board decided to offer three bursaries for competition by students in the division, with the intention of encouraging Divisional students to enter the teaching profession. Each bursary is valued at \$300.00.

Declaration of Office

The Divisional Secretary received Declaration of Office, duly sworn, of Charles E. Fulton, Trustee, elected by acclamation to represent Sub. Division No. VI on the Divisional Board for a term of three years ending December 31st, 1951.

Close Highwood School

The Board heard a report concerning meeting held in the Highwood S.D. No. 1634 at which those present appeared to favor the closing of the school and the transportation of the pupils into High River for the next School year. The Board decided to close the school as requested.

It was decided to instal several sets of swings at the Vulcan School. Some discussion took place regarding work to be done in Divisional Schools and the Secretary was instructed to bring in a report on same at next meeting.

Will Build New Office

The Board again gave consideration to the building of an office in High River and as present leases for Divisional Office quarters and repair shop expire shortly it was decided to proceed with the erection of an office building. Leo J. Heywood being given charge of construction work.

Discuss Inclusion Okotoks S.D.

Delegation was interviewed from the Board of the Okotoks S.D. No. 178 and general discussion took place regarding inclusion procedure necessary for a school District to be included into a School Division. It was arranged that further discussion regarding the possibility of Okotoks entering the Division would take place at a later date.

New Salary Schedule

The Teachers' Salary Negotiating Committee composed of Mrs. Elda M. Robinson, Mr. Vernon A. Coleman and Mr. Elroy L. Broz met with the Board to discuss the Teachers' Salary Schedule to be in effect during the next School Year. An arrangement satisfactory to both parties was arrived at and a new Salary Agreement was signed, the principal change being increased payment for University training.

Water-Sewer at Vulcan

It was decided to take advantage of the services of a ditch-digging machine at present in Vulcan to have water and sewage lines laid into the Vulcan School Buildings.

The Board approved attendance of the Secretary at the Fifth Annual Refresher Course in School Administration to be held at the University of Alberta, Edmonton.

The Board approved that a telephone be installed in the Fok School teachersage.

Members of the Board present at the meeting were Messrs. Wied, enhammer, Rhodes, Johnson, Fulton and Love, together with the Divisional Superintendent and Secretary.

Local Items

The prevalence of red measles throughout the district has caused a fall-off in school attendance in localities, and accounted for much illness among school age and pre-school children.

Mrs. Gordon Gilks, past president of the Rebekah Assembly of Alberta accompanied by her sister, Mrs. Evans of Calgary were house guests at the home of Mrs. Pete Bowie the first of the week.

Mrs. Lorne Sales spent the first of the week visiting with her parents, Mr. and Mrs. R. Root, at Calgary.

Mrs. Pete Bowie and Mrs. Ernie Bowie entertained the ladies of the Milo Rebekah lodge, Tuesday afternoon, at tea, in honor of Mrs. Gilks and Mrs. Evans of Calgary.

Work has been resumed on the W. Marks' home across from the school, which was commenced last fall.

Four Miles of Sewer Tile In

Laying of the sewer tile—four miles of it—was completed this week by the efficient crew of Dominion Construction, with the block on Vulcan Street from the hotel to the I.O.O.F. hall, being the last to go in.

Although it was anticipated that much tough sandstone would be encountered in this block, it did not turn out as bad as expected. Sandstone was encountered in several places about four feet down in the lower half of the block and the jack-hammer crews had it ripped out in little better than a day.

Outcroppings of hard sandstone have been encountered at various spots in town, with the street fronting the Beaver Lumber Co. proving to be the toughest.

The big ditching machine is now working from the No. 2 well towards town.

First Minister Here Will Take Anniversary Service

The anniversary services of the Vulcan United Church will be observed Sunday, June 19, when the speaker will be the Rev. D. K. Allan, now of Edmonton.

Mr. Allan was the first ordained minister of the church in Vulcan, coming in 1910 as resident minister. Previously, he had supervised student ministers in the district. Mr. and Mrs. Allan spent several years in the pastorate here and have many pleasant memories of the early days of Vulcan.

All are invited to the social hour to be held in the church hall at the close of the evening worship. A special invitation is extended to those who were living in the district during 1910-1916, whether resident here or living elsewhere.

Gordon Graydon Here On Friday

Gordon Graydon, M. P. for Peel, Ontario; Stanley Wyatt, Progressive Conservative candidate for Macleod, and Arthur Smith, M.P., Calgary, will be the speakers at a Progressive-Conservative public meeting to be held in the I.O.O.F. hall this Friday evening, June 10, at 8 p.m.

Vulcan residents will find Mr. Graydon an able speaker. He was first elected to the House of Commons in 1935, increased his majority in the two subsequent elections until in 1945 he broke all previous records of his riding for the highest vote ever given a candidate in that constituency.

In 1941 he was chosen National Chairman of his party and in 1943 was elected House Leader of the Progressive-Conservatives and carried on as Leader of the Opposition until the general election of 1945. Today he is desk-mate of George A. Drew and an influential figure in the councils of the party.

Reid Hill H.S.A. Sees Health Films

The regular meeting of the Reid Hill Home and School Association was held at the school, Wednesday evening last, with a good turnout of members. Mrs. D. Thomas, the vice-president, occupied the chair and opened the meeting in the usual manner.

The feature of the evening was and address by Dr. Ball, of High River, the District Health officer, accompanied by his nurse. A number of highly interesting health films were shown by the Doctor. Appreciation is extended to the program committee who were responsible for obtaining this much enjoyed speaker.

Arrangements were made for holding the school picnic, and reservations have been made to hold it at Park Lake on June 18th, weather permitting. In the event that this weekend is rainy the picnic will be held the following Saturday.

A delicious lunch was served to the meeting by Mrs. Green and Mrs. Anderson.

Jobs To Do

Like the Lady who said her dentist had fixed her teeth very well indeed, except for their all dropping out, man has done a fairly good job of mastering his environment, except for arranging to blow it all up. To the individual, however, The Bomb is not as certain as death itself. And instead of bringing death sooner The Bomb has turned out to have postponed death by postponing the war.

Waste land for personal bomb shelters has been in increasing demand in Arizona, New Mexico and the Caledon Hills, Ontario, since the truths of Fulton sank in. At Boston Mr. Churchill gave a few more directions, because his Fulton directions had been largely followed. There now seems a chance that everything will not blow up right away or even at all, so waste land values in the above and other vacant spaces may be expected to fall off.

If the owners of the land are intelligent they will like this.

In the surcease from panic, the not-in-office individual might now usefully consider what he can do to further the hopes provided him by The Bomb and the pacts of the finally-frightened West. There are two main things he can do. The first is to impress on those in office that he wants the most effective fighting services his taxes can obtain, even if he must forgo some welfare-state comforts in the process. The second is to knock on the head any talk against the other peoples involved with his country in the agreements for mutual protection.

Both these measures come hard to Canadians. We don't like guns and we do like to be buttered up with tax-paid Ottawa services. But the tax money (reduced or even increased again) will not cover both. And social security would be insecure if the Baby Bonus cheque signers had been run out of Ottawa by the Russians.

As for being sulky about the Americans and the English, these attitudes are Canadian specialties. We have been practising disliking the English ever since we got off the boat. And although the Americans have become arrogant and taken to calling themselves Americans only in comparatively recent times, we are rapidly improving our sulks about them.

The not-in-office citizen can find scope for exorcising his Bomb worries by fanatical advocacy of two measures: Fight for fighting services so Canada can do its share; perhaps Canada can tip the balance as it has helped to do before. And promote an emotional alliance with the U.S. and the U.K., who will be with us, as they have been before, when disaster at last turns tail and scuttles away.

is the best jamboree in these here parts, we reckon, and we invite you to visit it on

JUNE 17 and 18

Starts off with a gen-u-wyne western welcome to a trainload of visitin' L.F.A.P. delegates from 25 furrin' countries. Then there's the tre-mendous parade, more'n a mile long, with the most amazing contraptions, hill-billy bands 'n a lot of beautiful gals and handsome Palominos.

Champeen cowboys from all over the continent will provide mighty fine stampee entertainment, being these educated gents really know their three Rs—Ridin'—Ropin'—Racin'.

There'll be thrills and spills aplenty both nights with the chuck wagon races, we reckon. And if you've a hankerin' for dancin' the Legion is holding a carnival and shin-dig in the arena both nights.

A unit from the CBC will record many of the events which will later be broadcast over Station CBX and another unit from the National Film board will take movies. Top-notch reporters and photographers will be here to cover the show.

There are two new sections of grandstand for parking your chassals and home cooked food concessions will be run by two local women's organizations to keep up your strength.

RED CROSS

A meeting of the F.U.A. was held at the home of Mr. and Mrs. Norman Love on May 31. Membership is increasing and is expected that future meetings will be well attended. Discussion was held on the possibility of organizing a ball team and Norman Love and Andy Knive will be in charge of this activity. It was also decided to enter a float in the Vulcan Rodeo parade. Lunch was served by the hostess, assisted by Miss Elaine Love. The next meeting will be at the Jack Smith home on June 28 and members are also reminded of the F.U.A. convention in Edmonton on June 16.

Friends of John Love Sr. will regret to learn he is a patient in the local hospital.

Mr. and Mrs. D. L. Doane have left by car for an extended trip through the States and Eastern Canada.

Weekend visitors at the home of Mr. and Mrs. Glen MacLennan were Arthur Wolfe of Raymond, Mr. and Mrs. MacLennan Sr. and Mrs. H. L. Dansemmer and family of Cochrane.

Mrs. F. LaFontaine is a patient in the General hospital, Calgary, where she recently underwent an operation. Wishes for a speedy recovery are extended by all her friends.

Mr. and Mrs. Bert Castles of Vancouver are visiting at the home of the latter's sister and mother, Mrs. F. LaFontaine and Mrs. Hanson.

Mr. and Mrs. Alvie Fulton and Mr. and Mrs. George Fulton were Sunday visitors at the EP Ranch, High River.

Mr. and Mrs. Art Southgate and family of Calgary were weekend guests at the home of Mr. and Mrs. Alvin Jacobson.

Mrs. Dalglish of Grand Prairie is visiting at the home of her brother in law and sister, Mr. and Mrs. A. Giles.

Calgary visitors last week included Mr. and Mrs. C. Dunham, Mr. and Mrs. Clay Snow and family, Mrs. Maud Snow, Mr. and Mrs. Sam Nafziger, Norman Jacobson, and Wesley Fulton.

Sunday visitors at the home of Mr. and Mrs. E. Rushfeldt were Mr. and Mrs. K. Rowland and boys of Cluny, Miss Colleen Colson, Miss Gweneth Rushfeldt and Wallace Starky, all of Calgary.

Mr. and Mrs. Ralph McKinnon have sailed for Scotland, where they will spend three months. Their friends all wish them a happy voyage.

Mr. and Mrs. George Todd were Nanton visitors Monday and Tuesday.

Mr. and Mrs. David Gonyea have returned from their recent honeymoon at Banff.

Under General Faculty Council are the Councils of the various Faculties and Schools.

The Faculty of Arts and Science is the senior Faculty and forms the nucleus of the University. It contains the Departments of Botany, Classics, English, Fine Arts, Geology, History, Mathematics, Modern Languages, Philosophy and Psychology, Physics, Political Economy, and Zoology. Nearly all other Schools and Faculties draw on Arts and Science for the training of their students in some degree.

The Faculty of Agriculture comprises the Departments of Agricultural Engineering, Animal Science, Dairying, Entomology, Plant Science and Soils.

The Faculty of Engineering offers programs in Civil, Chemical, Electrical, Mining, Petroleum and Irrigation Engineering Geology.

The Faculty of Medicine consists of the Departments of Anatomy, Bacteriology, Hygiene and Preventive Medicine, Biochemistry, Medicine, Obstetrics and Gynecology, Ophthalmology and Rhinology, Otolaryngology, Pathology, Physiology and Pharmacology, and of Surgery.

The Faculties of Dentistry, Education and Law have not yet been divided into Departments nor have the Schools of Commerce, Household Economics, Nursing and Pharmacy. In addition to the Departments listed above are the Departments of Extension and of Physical Education.

All these organizations require a great deal of housing. The earliest University buildings, Athabasca, Assiniboia and Pembina Halls,

MACLEOD TO CELEBRATE DIAMOND JUBILEE

Science is making rapid advancement and the day of the mounted policeman, the cowboy, the Indian, the chuckwagon, the round-up and the open range is fast becoming a memory. Macleod Diamond Jubilee will portray as nearly as possible the thrills and excitement of those old days.

The Indians in their Indian villages, with their travois, teepees, the cowboys with their bronchos, the mounted Police in their gay red and gold uniforms, will be in attendance. The early west will live again with all the thrilling sports of the open range. A big program of cowboy sports and stampede events will be held every day, and in the evening there will be special stage attractions at the grounds, while dancing and other amusement will entertain down town. All this will be concluded by one of the finest and most spectacular fireworks displays ever offered in Alberta on Saturday night.

The opening day June 30th will feature the grand parade, over three miles of feathered Indian chiefs, cowboys and cowgirls, industrial and other floats, the grand procession being led by three Jubilee Queens and their ladies-in-waiting.

Macleod has a history that is the envy of every city and town in western Canada. This three day celebration will commemorate the 75th Anniversary of the coming of the Mounted Police and the christening of the town after Colonel J. F. Macleod, commander of the Police '74.

Between them, Canada's two major railway systems maintain nearly 56,000 miles of track, 10,000 bridges, 180,000 culverts and over 100 tunnels.

were built by 1914. Today they are used exclusively as residences, but are quite inadequate for the needs of the present student body even with the help of the facilities provided for men by St. Stephen's College of the United Church, and St. Joseph's College of the Christian Brothers.

By 1922 the University had built or acquired the Arts Building, the Engineering Laboratories, the Medical Building and clinical facilities in the University Hospital (under separate administration by the Government).

Very little building was done for about a quarter of a century except small buildings such as the cafeteria, the infirmary and the Press Building which came as a result of the presence of service men on the campus during the war. When the veterans came to the campus in 1945 and 1946 it erect a large number of temporary huts acquired from the Canadian and American armed services. Long-range plans were also laid and lately new wings have been completed on the Medical Building, the Rutherford Library is under construction, and there will soon be a Students' Union Building, a Provincial Laboratory of Public Health, and a Biological Science Building.

In the central part of the campus are the new Mewburn Pavilion for veterans the Nurses' Residence, and the University hospital on which a large extension has already been begun. Farther south still is the Education Building—formerly the Edmonton Normal School. In this area too, steel has already been erected for the new Aberhart Memorial Sanatorium for T.B. patients.

With all these buildings it would seem that over-crowding was impossible, but every bit of space is utilized. Next week's article will deal with some of the work done by one Department—that of Mining Engineering.

PARDON our pointing... with pride.

But it's an event when the number of bank workers passes the 40,000 mark — as it did last year.

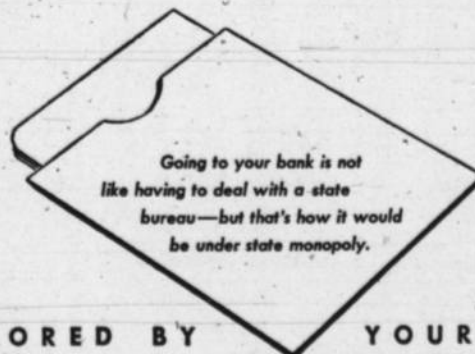

That's 65% more than before the war.

It's an event, first, because it shows the increased use of Canadian bank services...

More deposit accounts: now over seven million.

More funds: customers' deposits now reach nearly seven billion dollars. More services: to farmers; to personal and small-business borrowers; to war pensioners; to people receiving Family Allowances.

It's an event, too, because of the kind of men and women who have joined our ranks. Eager to get ahead, they are finding in banking an interesting job, a challenging career. They can tell you how important privacy in banking is to the Canadian way of doing things.

Champion Groceteria

One will find only the most wholesome and nationally known lines of groceries at the Champion Groceteria. "Buy it at the Champion Groceteria" is a fitting slogan for those who wish to keep their food bill at the lowest possible figure and still get the best of quality. One can make a substantial saving by purchasing at this popular store. Grocery stores operate on a smaller margin of profit than most lines of business, and the Champion Groceteria turns over its stock many times a year, thus assuring their many customers of fresh goods at all times.

Established since September 1931, the Champion Groceteria is owned by Mrs. L. Latiff and managed by F. Bouzyan. F. Bouzyan has had over twenty years experience in the grocery business and is fully conversant with all its phases. He sees that the stock is complete at all times with food supplies that every housewife asks for and needs. If it can be had at all, one will find it at the Champion Groceteria which operates on the self-serve system.

At your next opportunity call in at this store and look over their stock, one will be surprised to find such a large variety. The housewife is cordially invited to step in and get acquainted, whether buying or only shopping.

Teskey—Bird

A wedding of interest throughout the district was solemnized by Canon W. H. Morgan in the church of St. Michael's and All Angels recently when Catherine Ruth Bird, R. N. was united in marriage with Albert Ermen Teskey, son of Mr. Floyd Teskey and the late Mrs. Teskey. The bride, who was given in marriage by her father, wore a white satin gown with high neckline and lily pointed sleeves. A beaded coronet caught her floor length veil. She carried a bouquet of pink roses in the cascade style. Mrs. D. Wallace attended her sister as matron of honor, wearing pale yellow taffeta and carrying a bouquet of yellow carnations and talisman roses. The bridemaid, Miss Melba Howard, wore an ice blue satin and carried pink carnations.

Mr. W. Stundon was best man while Mr. J. McRobbie and Mr. D. Wallace were ushers. The church was decorated with spring flowers. Easter lilies and ferns.

Mrs. V. Teskey, aunt of the bridegroom, and Mrs. Bird, mother of the bride, assisted at the reception which was held in the Ranch Room. Mr. L. Maxley proposed the toast to the bride.

The bride chose a cherry red gabardine suit with gray topcoat and black accessories for the honeymoon trip by plane to Whitehorse, Yukon; Skagway, Alaska;

Sydney B.C. and Victoria, B.C. where they will make their home.

DEFATING DIPHTHERIA

For the seventh consecutive year deaths from diphtheria in Britain have been the lowest ever recorded. Last year they totalled 150 compared with 2,641 in 1941. It was in that year that the United Kingdom Government initiated the national campaign for immunizing infants against this deadly disease. Since then outbreaks of diphtheria have also shown an equally spectacular and steady reduction. In 1941 nearly 51,000 cases were registered. Last year there were only 8,034. The campaign will be continued again this year. The aim is to immunise three-quarters of all babies in Britain before they reach their first birthday.

Collier Hardware, Carmangay

The Collier Hardware is a fairly new business place located in Carmangay that has built up a substantial business during the time it has been operating. The business was established in 1946, and since that time the firm has built up an enviable reputation for merchandising for miles around. The business is under the management of the proprietor, Mr. S. L. Collier, who is constantly on the look-out for newer merchandise and more improved methods with which to serve his many customers.

Here one will always find big, values in shelf hardware, household utensils, paints, electrical and builders' hardware, garden and mechanics' tools, etc.

When it comes to tools and shelf hardware, this popular shopping centre has an endless array for your selection. At this store you never hear that alibi "just out," for their stock is most complete.

There is no one of more deserving mention than Mr. Collier whose hardware store is the centre of activity for residents of Carmangay and District. He is constantly striving to keep abreast of the times and in so doing has made his place of business a credit to the community.

HOW DO YOU LIKE IT? TAXES! TAXES!! TAXES!! AND MORE TAXES

Under present Financial Policy no government can spend money without taxing the people. The more they spend the more they tax. No government can continue to reduce taxation and still keep up vast expenditures on social services, price support, pensions etc.

There Must be a Change In Financial Policy

The noose of taxation is around your neck. Mr. Abbott loosened it a notch in his last budget, but:

IT IS STILL AROUND YOUR NECK

The people of Alberta know this and will never go back. But we must hold the line and keep blasting away at Ottawa.

STOP CREAM CHEQUE LOSSES:

Recently we had a visit from Mr. Knut Anderson, Dairy Inspector for Southern Alberta, who is interested in helping milk shippers get all the profits they can out of their milk cows. He gave us the following hints for reducing losses, which cream shippers will appreciate.

"Largely responsible for complaints about price decline was the fact that cream is marketed twice a week and producers were constantly reminded of the lower price. With the guaranteed floor price for first grade creamery butter effective for another year, no further price declines are likely for top grades of cream until the end of March, 1950. The floor price is 58c per pound basis Ontario and Quebec.

Authorities warn however, that second and off-grade cream is a drug on the market and will receive very poor prices. Since consumers prefer butter substitutes to the poorer grades of butter, it is almost impossible to market second and third grade butter. The prices for second and off-grade cream have reflected this lack of interest and the result is that some creameries are now paying 24c less for No. 2 than for Special grade, and off-grade shows a differential of 31c.

Why lose \$5.00 to \$6.00 on a can of cream, asks the authorities, when by following a few simple suggestions Special grade can be marketed and top prices obtained? The procedure suggested by the authorities is as follows:

1. Milk only clean healthy cows in a clean atmosphere.
2. Keep cows out of weed infested fields or allow 3 to 4 hours on a clean pasture before milking.
3. Use only well tinned utensils free from rust and open seams.
4. Wash and sterilize all utensils between each milking.
5. Cool cream quickly after separation.
6. Keep cream cold (40 degree F. or less) while held on the farm.
7. Separate your cream to test about 35% butterfat.
8. Ship often, twice a week if possible during hot weather."

CRESTED WHEATGRASS SEED (Experimental Farms News)

This year Crested Wheatgrass should be left for seed on every field where the grass heads out and does not appear to be suffering from lack of moisture at this time. A stand in this condition is more than likely to produce a worthwhile crop of seed. It is important that as much seed as possible is produced since the demand is great and the supply very limited. The cost of seed was extremely high last year and many farmers hesitated to plant grass because of the high initial outlay. Even if the price of seed dropped to one-half of what it is today, it would still be profitable to harvest a stand yielding as low as 50 pounds per acre. A yield of 200 to 300 lbs. per acre is common and yields as high as 1000 pounds per acre have been obtained, says D. H. Heinrichs, Dominion Experimental Station, Swift Current, Sask.

To obtain as much seed as possible, it is important that the grass be cut at the right stage and proper harvesting methods be employed to avoid waste. The best methods of harvesting are:

1. Swathing and combining three to four days later.
2. Cutting with binder and threshing with threshing machine. Crested wheatgrass should be cut when the heads are brown with a greenish tinge. Only the most mature heads should approach a brittle condition. Power take off swathers and binders have given best results. When such machines are used, the rate of travel may be decreased while a high sickle speed is maintained. This makes sure of a clean cutting job if the sickles are sharp.

Straight combining is not generally recommended because the best seed is lost through shattering. However, for thin stands where swathing or cutting with the binder is not feasible, this method of harvesting may be used to advantage. Even if most of the seed is ripe there will be considerable green material and the seed must be spread on the floor of a granary to dry before it is cleaned and stored, in order to prevent heating.

Threshing grasses is more difficult than threshing most other crops, and the following suggestions may be helpful:

1. Rub, bar cylinder combines are the best, as they do not break the straw up as much as tooth cylinders. The cylinder and concaves should be fairly far apart. When a tooth cylinder threshing machine is used, half the concaves should be removed.
2. Run machines below normal

speeds.

3. Cut down the round blast.

4. Adjust sieves so that they are fairly flat. This will avoid broken straw from falling through with the seed.

For cleaning the seed zinc screens are more suited than wire screens, the latter plug up too easily. The ordinary fanning mill generally will clean grass seed sufficiently well to make it possible to seed through a drill, but weed seeds are not removed. The carter disk, with special disks, is effective in removing weed seeds.

The best yields of crested wheatgrass are produced if the crop is grown in rows spaced three feet apart and cultivation is practiced between the rows. Anyone wishing to establish a seed plot would be well advised to seed in 3-foot rows at about 2 to 3 pounds per acre.

ACT HELPS AGAINST SPREADING WEEDS

In the Regulations under the Dominion Seed Act, dodder, field bindweed, hoary cress, leavy spurge and Russia knapweed are designated as Prohibited Noxious weeds.

Fortunately these weeds are not found in Canada except in very restricted areas, says Arthur Dumnis, Associate Chief (Seeds), Plant Products Division, Dominion Department of Agriculture, Ottawa. They constitute such a menace to agriculture that every effort is made to prevent their distribution.

Penalties are provided under the Seeds Act for selling or advertising seed which contains these weed seeds. Any seed which is found to

contain prohibited noxious weed seeds is subject to detention and confiscation, with Ministerial approval, by an Inspector of the Plant Products Division. Any such seed reaching a Canadian Customs Port of Entry is ordered to be destroyed, or is destroyed.

Canada's great Leader

(LOUIS ST. LAURENT, Prime Minister of Canada)

At the polls on June 27 the voter must ask himself, ahead of anything else, who should be head of the government.

In Louis St. Laurent, Canada has found a great national leader.

That he had high abilities of the mind was proved by his career in law. That he had wisdom in cabinet, unique gifts in parliamentary debate and a quick grasp of large affairs became clear as soon as he entered the Government. In international affairs, as one of the original advocates of the Atlantic Pact, he made himself a world figure who spoke out as no Canadian before him, in the councils of the nations.

He also revealed an understanding of ordinary people, because he is

one of them.

This warm and essentially simple human being is the real St. Laurent, the product of the small town, of humble beginnings, hard work, a big family and the friendliness of country neighbors.

In blood, language and instinct he combines the qualities of two great races.

To the voter it is equally important that St. Laurent is the leader of a truly national party, with proved strength from coast to coast, the only party which can hope to form a stable government after the election. His character, his ability and his achievements have made him the leader of all the Canadian people.

STONEBORD

THE FIREPROOF GYPSUM WALLBOARD

Here is an unusual, low-cost wallboard with a face of beauty and a heart of fireproof gypsum rock. For new homes—for alterations—for business premises—for farm interiors—wherever a wall or ceiling is needed, there's nothing like Stonebord, the fireproof gypsum wallboard.

Stonebord has special features available in no other type of interior wall and ceiling material. It has a core of rock encased in two heavy sheets of specially manufactured fibre, making it fireproof, warp proof and vermin proof. Stonebord is as durable as the natural rocks from which it is made.

Large permanent sheets of Stonebord are nailed into place—joints are made to vanish quickly—smooth walls of sparkling beauty result when decoration is applied. All this is done in very short time—at low cost. Stonebord has received one coat of size during manufacture. Only one coat of primer or size is required before decorating. Paints spread further, even pastel shades retaining their original delicate tints, all their freshness and clarity.

Stonebord is made in three-eighths of an inch thickness and in lengths from four to twelve feet. Sheets are 48 inches wide.
